

## *Summer Harvest*

Summer has arrived with lengthened days and gentle nights for carefree conversation, and organic produce from our local farm.

Our vegetables are freshly picked. Zesty radishes, sweet peas, leafy greens, beans and garlic scapes complement the summer harvest menu, adding light flavours and textures of the season. We at Ancaster Mill are proud to share with you our very own organic harvest, cultivated from ninety-seven acres of beautiful Flamborough farmland.

We hope you enjoy the summer air and the natural ingredients the season has to offer.
